

AnyWater

Enjoy Clean, Pure Alkaline Mineral Water
Anytime! Anywhere!

KICK-START YOUR MORNING WITH ANYWATER

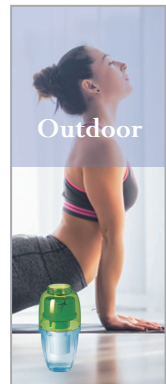

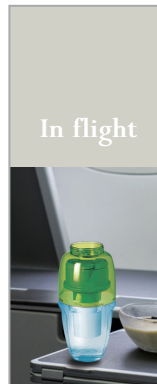

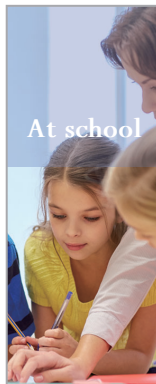

Alkaline Mineral Water
- Fresh & Healthy -

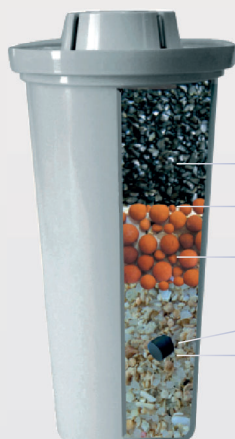

AnyWater is the guardian for your health.

- Keeps water fresh and tasty.
- Removes chlorine, foreign matter and smells that may exist in water.
- Helps deter the bacterial propagation.
- Makes ordinary water into alkaline mineral water by increasing minerals such as calcium and magnesium, which are essential for human body.
- Makes and maintains the alkaline level of water ideal for human body. (light alkaline: pH 8)
- Self-purifying functions
- ★ AnyWater for my health, healthy water for my health – It's AnyWater!

<Compact & comfortable to carry>

Filter System:

- Bio balls
- Activated coal
- Ceramic balls
- Magnets
- Somelite

Superb natural filtering & purifying functions

As water takes up 70% of our body, genuinely healthy water can make us healthy. AnyWater employs the natural filtering methods of the natural stratum principles to deliver exceptional purifying performance and fresh and tasty water quality. It removes chlorine, foreign matter and smells that may exist in water and helps deter the bacterial propagation.

★ *Filter lifespan: 3 months*

A constituent comparison between AnyWater and the world's three major mineral water brands.

	Nordenau Water	Lourdes Spring Water	Okinawan Rock-bed Water	AnyWater Alkaline Mineral Water
Calcium	54.3 ppm	44.5 ppm	29.0 ppm	28.0 ppm
magnesium	12.0 ppm	3.7 ppm	4.6 ppm	4.3 ppm
sodium	3.8 ppm	3.6 ppm	2.7 ppm	1.5 ppm
potassium	1.2 ppm	0.8 ppm	1.5 ppm	0.5 ppm
pH	8.12	7.9	8 ~ 9	8 ~ 9

Tests on acid & alkaline contents

Using such natural minerals as bio-mineral sands and active coral sands and special 6-pole magnets, minerals from AnyWater filter help generate more than 40 kinds of mineral ions good for human health like calcium and magnesium, and provides tasty mineral water.
